What Every Man & His Partner Should Know: Prostate Cancer

When: Friday, September 8, 2017 at 7PM

Where: 1706 S Halsted; Chicago, IL 60605

Prostate cancer is the most common non-skin cancer in men effecting about 1 out of every 6-7 men. Come join us to learn more about prostate cancer and improving life after prostate cancer treatment. There will be a brief presentation featuring urology healthcare experts, a free book signing and refreshments. You can also sign up for the 13th Annual SEA Blue Prostate Cancer Walk taking place on September 10, 2017 in Lincoln Park.

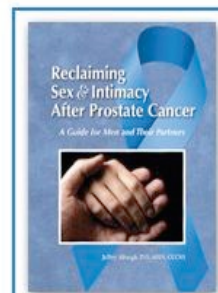

**FEATURING: JEFFREY ALBAUGH, PHD, APRN, CUCNS
& VANESSA SPEARS, CURN, MS (PRESIDENT OF
SOCIETY OF UROLOGIC NURSES & ASSOCIATES)**

Dr. Albaugh

"This book should be read by all men, as well as their partners, prior to undergoing prostate cancer treatment. In a clear and patient-friendly style supplemented with numerous illustrative diagrams and sidebar highlights to emphasize important "take home messages"

Dr. Albaugh discusses the risks to sexual health associated with each type of treatment for prostate cancer, and then addresses the specific risks associated with surgery. He then provides a thorough overview of all available treatments for erectile dysfunction, devotes separate chapters to each of these treatments, and also provides a discussion regarding the post-treatment strategy of penile rehabilitation.
